Hartford, CT 06106

Dear Mr. Stacy,

I am writing in regard to the upcoming changes to the Streamflow regulations. Although Connecticut seems blessed with an abundance of water at this time, if we don't approve this legislation and work to preserve our resources here is a chance in the near future that we can be in dire straights.

This water belongs to the people, NOT whomever pays the most money. I often see pool companies sucking up the water from the larger streams and rivers in the area I live and I am appalled at this practice.

Please let me join with the numerous other who support the new stream flow regs and I want them completed without being weakened. Also, I support the elimination of Class 4, or change it so that every stream in the state will have some level of protection. Thank you for your time.

Sincerely,

A handwritten signature in black ink, appearing to read "Christine Goldbach".
